To Whom It May Concern:

Customer Reference – GEM Commercial Flooring Company

I have been asked to write this letter of reference on behalf of Matthew Elyachar and GEM Commercial Flooring Company.

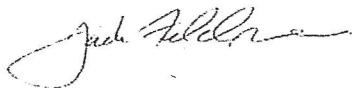

GEM Flooring has been a preferred supplier to our business for over twelve years. They deliver unsurpassed value in products and services, and their dedication to customer satisfaction is amongst the best. I can unreservedly recommend GEM Flooring as a supplier to any business that needs a competitive advantage with the wide range of products they supply! They carry multiple brands, which puts them in the unique position of being able to recommend the 'best' solution rather than the solution that matches their product lines.

In addition to doing business with his company for many years, I have known the president and founder of GEM Flooring, Matthew Elyachar, for more than 4 years. Knowing him for so long I am quite comfortable in vouching for him as an honest and trustworthy individual as well as a concerned and active member of our community.

As far as a company to do business with, GEM Flooring is without question one of the best that we have ever dealt with. They did the initial installation of both carpet and tile flooring at our facility in 1998 and have made a number of service calls in the ensuing years. Their customer service has been exemplary, and the quality of their work has been outstanding. They have been dependable, reliable and completely straight forward in all of our business dealings.

Please feel free to contact me if you would like more detailed information.

Sincerely,

Jack Feldman  
Executive Director
